

Ray #11

The Golden Ray of Femininity

I am feared by mankind.

I am deep
And incomprehensible.

The intellect cannot grasp me
And therefore rejects my value.

I am resisted
Rejected
Neglected.

My beauty
Is seen as emptiness
My tenderness
As weakness.

My name is Femininity
I am rising,
And claiming my space.

I should not be feared
My source is Divine,
My purpose noble.

Dear one,
Allow me to show my value
To your wellbeing,
Health and significance.
